ChatGPT

Executive Summary

Advances in Artificial Intelligence Research (AAIR) is a free Open Access computer science journal on DergiPark (e-ISSN 2757-7422)【21†L39-L45】. It requires submissions in MS-Word (.docx) using the official AAIR template【4†L156-L164】【3†L68-L73】. A research article must be ≤15 pages, with ≤300-word abstract, ≤60 references, and ≤10 total figures/tables【3†L68-L73】. All principal sections should be consecutively numbered (Introduction, Related Work, etc.)【11†L1-L4】 and formatted per AAIR rules (Cambria font, columns, margins)【4†L156-L164】【4†L172-L180】. Authors must upload a similarity report (≤20% plagiarism)【3†L43-L50】, cover letter (nominating 3 reviewers【3†L56-L60】), and any required ethical approvals. The reference style is IEEE-numeric (bracketed citations)【4†L219-L227】【12†L102-L109】. The peer review process is fast (first decision ~5–16 days, final decision ~55 days, publication ~9 days)【2†L71-L79】【2†L60-L63】. Importantly, AAIR (DergiPark) is **not** to be confused with the similarly-named allergy/immunology journal (e-aair.org) – submit only to the AI journal with **no publication fees**【21†L39-L45】.

AAIR Manuscript Structure and Sections

According to the AAIR Author Guidelines【3†L68-L73】【4†L134-L142】, a research manuscript should include the following parts (with suggested section headings):

- **Title:** In English (and optionally Turkish per template)【4†L162-L169】. Use 14 pt Cambria, centered.
- **Abstract (≤300 words):** Fully justified, italic 8 pt【4†L134-L142】. Summarize novelty, methods, and key results (no citations, no uncommon abbreviations). Include **Keywords (3–6)** immediately after the abstract【4†L134-L142】.
- **Introduction (1):** Motivates the problem, states contributions.
- **Related Work (2):** Overview of existing approaches and research gaps.
- **Methodology/Approach (3):** Describe models, data, algorithms used.
- **Experiments (4):** Experimental setup: datasets, hardware, evaluation metrics.
- **Results (5):** Present findings with tables/figures (quantitative comparisons).
- **Discussion (6):** Interpret results, discuss trade-offs (performance vs. cost/efficiency, etc.).
- **Conclusion (7):** Summarize contributions and outline future work. (AAIR template includes a "Conclusion" section【10†L230-L238】.)
- **Acknowledgments:** (Optional) Single paragraph acknowledging support (AAIR uses "Acknowledgment"【10†L233-L238】).
- **Author Contributions:** (If required) Brief statement of each author's role.
- **Funding:** (If any) List grant numbers or funding sources.
- **Conflicts of Interest:** State any conflicts or "no conflicts to declare." (Ethics policy requires disclosure【12†L102-L109】.)
- **References:** Numbered list in order cited. Use IEEE style: author initials, last name, title in quotes, source, vol(issue), pages, year【10†L238-L247】【12†L102-L109】. For example:

```
[1] A. Bennert, D. Hanson, A. Maher, “Influence of Pavement Surface
Type on Tire/Pavement Generated Noise,” Journal of Testing &
Evaluation, vol. 33, no. 2, pp. 94–100, 2005.【10†L238-L243】
```

AAIR advises numbering sections 1, 2, 3, … and subsections 1.1, 1.2, etc.【11†L1-L4】. All headings use Cambria font: Level-1 headings bold 11 pt, centered; Level-2+ headings 9 pt, left-aligned【4†L175-L183】.

Formatting Guidelines (Word/.docx)

- **Page setup:** A4 paper (210×297 mm), margins 30 mm top, 25 mm bottom, 15 mm left/right【4†L156-L164】. No page numbers or headers/footers (AAIR adds these).
- **Columns:** Body text in two columns (85 mm each) with 10 mm gap【4†L157-L161】. Title and full-page figures may span both columns.
- **Font:** Use Cambria. Main text 9 pt, justified【4†L180-L188】. Italics/bold sparingly for emphasis.
- **Title:** 14 pt Cambria, centered. Title in English (required) and Turkish (per template)【4†L162-L169】. Author names: initials + surname in small caps or uppercase initials (AAIR uses first initial + surname capital)【4†L163-L170】. Provide affiliations and emails below title (each on separate line)【4†L164-L172】. Do **not** include author names in the main manuscript (for blind review, upload details separately).
- **Abstract/Keywords:** 8 pt italics, fully justified【4†L134-L142】. Keywords (3–6) in 9 pt, after the abstract.
- **Headings:** Cambria 11 pt (bold) for main section titles (centered), 9 pt (bold) for subsections【4†L175-L183】. All headings start with a capital letter (title case).
- **Line spacing:** The AAIR template does not explicitly state spacing; use single-spaced lines within paragraphs, with a small space between paragraphs. (Template likely single-spaced.)
- **Figures:** Center figure within column. Caption below figure (e.g., “Fig. 1. Caption.”) in 9 pt. If a figure spans two columns, center it on the page (top or bottom). Cite all sources of reproduced graphics【4†L196-L203】. Leave placeholder text like “*Figure goes here*” in the draft if needed.
- **Tables:** Caption above table (9 pt). If wide table spans columns, place at top/bottom of page. Number tables sequentially. Reference them as “Table 1,” etc.
- **Equations:** Centered, numbered, using Word’s equation editor. Insert as 1×2 hidden-border table for number alignment (per guidelines)【4†L183-L193】.
- **Hyperlinks:** Allowed, same font as text, underlined【4†L211-L218】.
- **References:** Numbered with square brackets [1], [2], … in text【4†L219-L228】. List references at end, in order of citation【4†L219-L228】. Use IEEE style as noted above【4†L219-L228】【12†L102-L109】.

Page limits: Up to 15 pages (including all text, figures, tables, references)【3†L68-L73】. Maximum combined figures/tables = 10【3†L68-L73】. Exceeding these limits will lead to revision requests.

Reference Style and Examples

AAIR follows IEEE-like references【12†L102-L109】. In-text citations are numeric in brackets【4†L219-L228】. The References section lists entries in order. Examples from the guidelines【10†L238-L247】：

- **Journal article:** `A. Author, B. Author, “Paper Title,” Journal Name, vol. XX, no. YY, pp. xx–yy, 20ZZ.`【10†L238-L247】
- **Conference paper:** `A. Author, B. Author, “Title,” in Proc. Conf. Name, City, Country, Month Year, pp. xx–yy.`
- **Book:** `A. Author, *Book Title*, 2nd ed. City, Country: Publisher, Year.`【10†L242-L247】
- **Thesis:** `A. Author, “Title,” Ph.D. dissertation, Dept., Univ., City, Country, Year.`【10†L258-L262】
- **Online resource:** Include URL and access date (as in [12] example).

(AAIR’s examples【10†L238-L247】 show how Turkish sources are listed, but use English/APA-like style. Use DOI if available.)

Supplementary Files Required

Per AAIR guidelines【3†L43-L50】【3†L56-L60】, prepare and upload the following alongside the manuscript:

- **Similarity Report:** A plagiarism report (e.g. from iThenticate) confirming similarity ≤20%【3†L43-L50】. Upload as PDF.
- **Cover Letter:** A formal letter to the Editor-in-Chief. It should briefly introduce the work, its significance, and originality. **Nominate three potential reviewers** (names, affiliations) and optionally mention any who should not review【3†L56-L60】. State that the manuscript is original and not under review elsewhere. Highlight major contributions and compliance (e.g., ethical approval obtained, if applicable). *(A template is below.)*
- **Ethical Approval:** If the work involves human/animal subjects or other regulated data, include ethics committee approval letters or statements. Otherwise note “Not applicable.”
- **Copyright Transfer/License Form:** The AAIR site provides a copyright transfer form【3†L62-L65】. Authors must agree to assign copyright. Download, fill, and upload. (Often required at submission.)
- **Data/Code Availability Statement:** If your research uses datasets or code, prepare a brief statement on their availability. Some journals require a separate file or a section in the manuscript. If not requested explicitly by AAIR, including it in the manuscript (e.g. at end) is good practice.
- **Others:** If there are additional materials (e.g. large datasets, multimedia), check AAIR’s policy or contact the editor. Generally, keep it minimal for the first submission.

Submission Checklist and Steps (DergiPark)

1. **Register/Login:** Create a DergiPark account and log in. Go to the AAIR journal page and click **“Submit a Manuscript”**【2†L21-L25】.

2. **Submit Metadata:** Fill in manuscript title, abstract, keywords (3–6), subject category. Enter authors' names/affiliations in the system (but ensure the manuscript file itself is anonymized for blind review【2†L49-L53】).
3. **Upload Files:** Attach files as follows:
4. **Main Manuscript (.docx):** Use AAIR template format. Do *not* include author names or acknowledgments (for blind review)【2†L49-L53】.
5. **Title Page (.docx or PDF):** A separate file with title, full author list, affiliations, and corresponding author email. (DergiPark typically has a dedicated "Title Page" upload or this can be cover letter content.)
6. **Cover Letter:** Upload as PDF or DOCX. Include journal name, manuscript title, and reviewer suggestions (with emails if known).
7. **Similarity Report (.pdf):** Turnitin/iThenticate report.
8. **Ethical Approval (.pdf):** If applicable, upload IRB approval or ethical clearance certificate.
9. **Copyright Form (.pdf):** Signed author agreement (if provided by AAIR).
10. **Other:** Any supplementary (data/code statement, figures if separate). Embedding figures in the manuscript is fine.
11. **Reviewers:** On the submission form, you may enter the three suggested reviewers (or include them in cover letter). Provide their names, affiliations, and emails (if available).
12. **Finalize Submission:** Verify all fields (abstract, keywords, etc.) and uploaded files. Confirm that you have followed guidelines (e.g. word count, format). Submit. You will receive a confirmation email.
13. **ORCID IDs:** Optionally, link authors' ORCID iDs in your profile before submission for easy indexing.
14. **Follow Up:** After submission, use DergiPark's portal to track the manuscript status and respond to editorial requests. AAIR's editorial office may ask for revisions or additional info.

All submissions to AAIR are **free of charge**【21†L39-L45】. There are no hidden fees for processing or publication.

Cover Letter (Sample Template)

(Customize this with your details and paper title.)

```
Dear Dr. Özkaraca and Editors of AAIR,

Please consider our manuscript entitled "Small Language Models vs Large
Language Models: A Comparative Study of Performance, Inference Cost, Latency,
and Energy Efficiency" for publication in Advances in Artificial Intelligence
Research (AAIR). This work presents a novel analysis of how scaling language
models impacts inference performance and computational cost, including
benchmarks on latency and energy consumption. We believe it fits AAIR's scope
of recent AI advances and its interdisciplinary audience.

We confirm that this manuscript is original and not under review elsewhere.
All authors have approved the submission and comply with the ethical
guidelines of AAIR. A similarity report is attached (similarity <20%). *If
applicable:* This study did not require human/animal subjects, so no ethics
```

```
approval was needed. (Or: Ethical approval from [Institution] is attached.)

We suggest the following potential reviewers due to their expertise in
language model evaluation and efficiency:
- **Prof. Jane Smith** (Dept. of Computer Science, Tech University) – email:
UNSPECIFIED
- **Dr. John Doe** (Institute of Machine Learning, AI University) – email:
UNSPECIFIED
- **Prof. Alice Zhang** (School of Computing, State University) – email:
UNSPECIFIED

We have no conflicts of interest to declare. Thank you for your
consideration.

Sincerely,

[Corresponding Author Name]
Department of Computer Science, Your University, Country
Email: your.email@university.edu
```

(Do not address the letter to a specific editor by first name, use full title as shown.)

Author Contribution and Conflict of Interest Statements

Example Author Declaration:

"All authors contributed significantly to the research and manuscript. Author A conceived the study, Author B performed experiments, Author C analyzed data, and Author D drafted the manuscript. All authors reviewed and approved the final version. We affirm that the manuscript has not been published previously and is not under consideration elsewhere. We confirm that all data and code (if any) are available as stated in the Data Availability section."

Conflict of Interest:

"**Conflict of Interest Statement:** The authors declare that they have no conflicts of interest related to this work."

(If any author has a potential conflict, briefly describe it here.)

AAIR Review Timeline (Estimated)

AAIR uses a rapid **continuous publication** model【2†L60-L63】. Timelines from the journal's statistics indicate:

- **Initial Editorial Check:** Within ~5 days of submission【2†L71-L77】 (for suitability and completion of requirements).

- **Peer Review:** First decision typically in ~5–16 days【2†L71-L77】【2†L60-L63】. (AAIR advertises "first decisions in 16 days"【2†L60-L63】.) The initial decision may be accept, reject, or request major/minor revision.
- **Revision Rounds:** If revisions are requested, authors usually have 1–2 weeks to resubmit. Second review and final decision may take a few more weeks, depending on reviewer availability. The journal's "Time to Final Decision" averages ~55 days【2†L75-L81】.
- **Acceptance to Publication:** If accepted, online publication is very fast (~4–9 days)【2†L60-L63】【2†L77-L81】 due to continuous publication scheduling.

Overall, you can expect an editorial decision (accept/reject/revise) within 2–4 weeks of submission, and final acceptance within 2–3 months if revisions are needed【2†L71-L79】. AAIR notifies authors via email at each stage.

Avoiding the Wrong "AAIR" Journal

Be careful: **AAIR (DergiPark)** is *not* the same as the medical journal "Allergy, Asthma & Immunology Research" (also abbreviated AAIR, at e-aair.org). The medical AAIR (Korean Society of Allergy, etc.) is entirely different (and often charges fees). Always verify you are on the DergiPark site (https://dergipark.org.tr/en/pub/aair) with e-ISSN 2757-7422【2†L13-L21】. This AAIR (Advances in Artificial Intelligence Research) is free to publish【21†L39-L45】. Double-check the journal scope ("Artificial Intelligence Research") and publisher (Osman Özkaraca) before submitting to avoid the wrong journal.

Deep Research Connector Prompt

To generate the complete submission package, use the following Deep Research prompt (copy into the Deep Research app exactly):

```
app://connector_openai_deep_research
Generate a complete, AAIR-formatted manuscript and submission package for the
title "Small Language Models vs Large Language Models: A Comparative Study of
Performance, Inference Cost, Latency, and Energy Efficiency." The output
should include:

- A properly formatted AAIR journal manuscript (.docx) using the AAIR
template style. Include sections: Title, Abstract (≤300 words with 3–6
keywords), Introduction, Related Work, Methodology, Experiments, Results,
Discussion, Conclusion, Acknowledgment, References (IEEE style). Use Cambria
font (title 14 pt, headings 11 pt bold, text 9 pt, double-column).
- Placeholders for 5–10 figures/tables (e.g. "*Figure 1 goes here*").
- A literature survey matrix table listing 5–8 recent relevant papers
(author/year, methodology, key findings, limitations).
- Generate realistic fictional content for analysis (no plagiarism).
- A separate checklist with filenames (e.g. Manuscript.docx,
CoverLetter.docx, SimilarityReport.pdf, TitlePage.docx, AuthorAgreement.pdf)
and submission steps.
- A cover letter (as a text file) nominating 3 reviewers (with dummy names/
affiliations).
- A 2-paragraph author declaration (contributions, data availability, etc.)
```

```
and conflict-of-interest statement.
- Ensure AAIR guidelines compliance (≤15 pages, ≤10 figures/tables, IEEE
citations).
- Finally, package all created files into a ZIP format ready for
submission.
```

Submission Checklist

- [ ] **Topic & Guideline Check:** Ensure topic fits AAIR's scope and is based on recent research (last 3–5 years).
- [ ] **Manuscript Preparation:** Write paper using AAIR .docx template (A4, Cambria 9 pt, double-column). Do not include author names in the main file.
- [ ] **Sections:** Include all mandatory sections (Abstract, Keywords, Intro, Related Work, Methods, Experiments, Results, Discussion, Conclusion, Acknowledgment, References).
- [ ] **Formatting:** Follow AAIR formatting (margins, fonts, headings, citation style)【4†L156-L164】【4†L219-L228】.
- [ ] **Citations:** Use numeric [ ] style, list references in order【4†L219-L228】. Ensure ≤60 references (IEEE style)【3†L68-L73】.
- [ ] **Figures/Tables:** Limit to ≤10 combined. Number and caption them (place captions below figures, above tables)【4†L196-L204】. Check readability (min. 300 dpi).
- [ ] **Supplementary Docs:** Prepare cover letter, list of suggested reviewers, similarity report (≤20% similarity)【3†L43-L50】, ethical approvals (if needed), and copyright agreement form.
- [ ] **Cover Letter:** Write and upload cover letter with paper title, brief summary, reviewer suggestions【3†L56-L60】, and disclosures.
- [ ] **File Names:** Name files clearly (e.g. `Manuscript.docx`, `TitlePage.docx`, `CoverLetter.docx`, `SimilarityReport.pdf`, `AuthorAgreement.pdf`).
- [ ] **Upload & Submit:** Log in to DergiPark, fill in metadata (title, abstract, authors), attach all files, review entries, and submit.
- [ ] **Post-Submission:** Keep track of emails from AAIR. Respond promptly to revision or review requests.
